Mykyta Romanenko

FrontEnd Developer (5+ years of experience)

ABOUT ME

Kharkiv, Ukraine (15.09.1999)

I have been doing Front-End development for more than 5 years. I have experience with various projects and technologies both in companies and as a freelancer. I quickly adapt to the company’s tasks and easily find a common language in the team. I adequately assess tasks, the time and resources required for their implementation, I can quickly navigate in case of difficulties, take initiative in solving problems and improving the project.
